PROHIBITED DEVICES

Cellphones, electronic watches and/or other electronic devices not approved by a competition’s national technical committee are **NOT** allowed in the competition area. Please follow the guidelines in each technical standard for approved exceptions. Technical committee members may also approve exceptions onsite during the SkillsUSA Championships if deemed appropriate.

Penalties for Prohibited Devices

If a competitor’s electronic device makes noise or if the competitor is seen using it at any time during the competition, an official report will be documented for review by the Director of the SkillsUSA Championships. If confirmed that the competitor used the device in a manner which compromised the integrity of the competition, the competitor’s scores may be removed.

ONLINE SUBMISSION REQUIREMENTS

All SkillsUSA national competitors must submit their one-page single sided resume online. The deadline and link for online submissions will be published on updates.skillsusa.org.

Failure to submit any of the required document(s) listed below by the established deadline will result in a 10-point penalty.

1. One-page single sided resume

Your submission must be saved as PDF file type using the file name format of “Your Last Name_Your First Name_Resume.” For example, “Amanda Smith” would save the individual PDF submissions file as:

- Smith_Amanda_Resume

SCOPE OF THE COMPETITION

The competition is defined by industry standards as identified by the SkillsUSA technical committee. The following is a list of materials used in the development of the competition:

- Eyewitness Evidence: A Trainer's Manual for Law Enforcement
<https://nij.ojp.gov/library/publications/eyewitness-evidence-trainers-manual-law-enforcement>
- Criminal Justice: An Overview of the System <http://www.oercommons.org/courses/criminal-justice-an-overview-of-the-system/view>

KNOWLEDGE PERFORMANCE

The competition will include a test assessing knowledge of laws and processes related to criminal justice. Competitors are also required to take the SkillsUSA Professional Development Test.

SKILLS PERFORMANCE

The competition will include activities that simulate situations encountered by criminal justice professionals. Competitors will rotate through several scenarios and skill assessments.

COMPETITION GUIDELINES

1. Each competitor must work independently without assistance from instructors, other competitors, and/or observers. Contact with competitors must be coordinated through designated event staff only. Any violation of this may result in the disqualification of the competitor.
2. A competitor holding area will be established if observation of stations/scenarios presents a competitive advantage. Competitors must remain in the holding area until they complete all required stations.
3. Cell phones, iPads/tablets, smart watches, wearable technology, or any other electronic device are prohibited in the competition and holding areas. Competitors are allowed to have reading material i.e., books, magazines in the holding area. Body cameras are allowed if they do not violate any other prohibition.
4. Only competitors, judges, and event staff are allowed in the indoor and outdoor competition areas. Observation is limited to the area designated by the judges or event staff. Any violation of this may result in the disqualification of the competitor.

5. Contact with the judges in any way, at any time, without the expressed permission of the competition coordinator is prohibited.

CJ 9.0 — SkillsUSA Framework

The SkillsUSA Framework is used to pinpoint the Essential Elements found in Personal Skills, Workplace Skills and Technical Skills Grounded in Academics. Students will be expected to display or explain how they used some of these Essential Elements. For more, visit:

www.skillsusa.org/who-we-are/skillsusa-framework/.

COMMITTEE IDENTIFIED ACADEMIC SKILLS

The technical committee has identified that the following academic skills are embedded in this competition.

Math Skills

- Measure angles.
- Apply transformations (rotate or turn, reflect or flip, translate or slide, and dilate or scale) to geometric figures.
- Construct three-dimensional models.
- Organize and describe data using matrices.
- Find arc length and the area of a sector.

Science Skills

- Plan and conduct a scientific investigation.
- Use knowledge of the particle theory of matter.
- Describe and recognize elements, compounds, mixtures, acids, bases and salts.
- Describe and recognize solids, liquids and gasses.
- Describe characteristics of types of matter based on physical and chemical properties.
- Use knowledge of physical properties (shape, density, solubility, odor, melting point, boiling point, color).
- Use knowledge of chemical properties (acidity, basicity, combustibility, reactivity).
- Describe phases of matter.
- Describe and identify physical changes to matter.
- Predict chemical changes to matter (types of reactions, reactants and products, and balanced equations).
- Use knowledge of speed, velocity and acceleration.
- Use knowledge of Newton's laws of motion.
- Use knowledge of simple machines, compound machines, powered vehicles, rockets and restraining devices.

Language Arts Skills

- Provide information in conversations and in group discussions.
- Provide information for oral presentations.
- Demonstrate use of such verbal communication skills as word choice, pitch, feeling, tone and voice.

- Demonstrate knowledge of appropriate reference materials.
- Use print, electronic databases and online resources to access information in books and articles.
- Demonstrate narrative writing.
- Demonstrate informational writing.
- Edit writing for correct grammar, capitalization, punctuation, spelling, sentence structure and paragraphing.

CONNECTIONS TO NATIONAL STANDARDS

State-level academic curriculum specialists identified the following connections to national academic standards.

Math Standards

- Geometry
- Measurement
- Data analysis and probability
- Problem solving
- Communication
- Connections
- Representation

Source: NCTM Principles and Standards for School Mathematics. For more information, visit: <http://www.nctm.org>.

Science Standards

- Understands biological evolution and the diversity of life
- Understands the nature of scientific knowledge
- Understands the nature of scientific inquiry

Language Arts Standards

- Students adjust their use of spoken, written and visual language (e.g., conventions, style, vocabulary) to communicate effectively with a variety of audiences and for different purposes.
- Students employ a wide range of strategies as they write and use different writing process elements appropriately to communicate with different audiences for a variety of purposes.
- Students apply knowledge of language structure, language conventions (e.g., spelling and punctuation), media techniques, figurative language and genre to create, critique and discuss print and nonprint texts.
- Students conduct research on issues and interests by generating ideas and questions, and by posing problems. They gather, evaluate and synthesize data from a variety of sources (e.g.,

print and nonprint texts, artifacts, people) to communicate their discoveries in ways that suit their purpose and audience.

- Students use a variety of technological and information resources (e.g., libraries, databases, computer networks, video) to gather and synthesize information and to create and communicate knowledge.
- Students use spoken, written and visual language to accomplish their own purposes (e.g., for learning, enjoyment, persuasion and the exchange of information).
